## HETTY GREEN PAYS LITTLE ATTENTION TO HER BIRTHDAY

Richest Woman in America Passed Seventy-second Birthday at Boarding House in Boston.

[SPECIAL TO THE GAZETTE.]  
Boston, Mass., Nov. 21.—Mrs. Hetty Green, who is spending the winter in Boston, was 72 years old today. The latest edition of "Who's Who" gives 1835 as the year of Mrs. Green's birth; but she herself is a authority for the statement that she came into the world a year before that date and consequently is 73 years old. Mrs. Green differs from the majority of her sex in many things and in the matter of stating her age, she is no exception. She is "getting along in years" and she doesn't care who knows it. There was no celebration to mark the birthday of the richest woman in America. She spent the day as she spends six days in the week, quietly looking after her business affairs and taking things easy. She is residing with her daughter in a boarding house that she owns in Howland street, Roxbury. Mrs. Green owns nearly all the houses on both sides of the street. The street is named after her mother. Mrs. Green's chief purpose in coming to Boston at the present time is to secure a tenant for a house opposite the boarding house where she now is, and which has long been vacant. The house has been on the rental lists of first one real estate dealer and then another for two years or longer, but it was not rented. Mrs. Green decided that it was time to do something. So she turned up in Howland street unannounced one Sunday morning and tore the agent's notices from the doors and windows. In their place she posted a notice directing prospective tenants to call upon her across the street. In addition to securing a tenant for her vacant house Mrs. Green is occupied with several lawsuits in Boston. But lawsuits never worry her. When they have been disposed of she probably will go to Texas to spend the remainder of the winter. She has vast interests in Texas and moreover her son, E. H. R. Green, lives there and "Ned," as she fondly calls him, is the idol of her heart.

## TO HASTEN MERGER OF THREE CHURCHES

Joint Committee Meets in Pittsburg to Complete Work on Union of Societies.

[SPECIAL TO THE GAZETTE.]  
Pittsburg, Pa., Nov. 21.—The joint committee on vested interests of the Methodist, Protestant, Congregational and United Brethren churches began a two days' meeting in Pittsburg today, the purpose being to take steps to hasten the consolidation of the denominations. The committee on policy also is in session and the committee on creed is to meet at an early date. When these committees have all finished their work the union will become an accomplished fact under the name of the general council of the United Churches.

## OKLAHOMA CORN CARNIVAL FORMALLY OPENED TODAY.

[SPECIAL TO THE GAZETTE.]  
Oklahoma City, Okla., Nov. 21.—The bumper corn-crops that the new state of Oklahoma is raising are illustrated in the great Corn Carnival, which was formally inaugurated in this city today after weeks of preparation. Merchants are vying with one another in the picturesque decoration of their establishments in honor of the celebration. Corn and corn stalks are to be seen at every turn, while at night the streets are to be aglow with electrical illuminations. The celebration is to cover a period of several weeks, during which time there will be a long list of attractions. In addition to the regular carnival entertainment there will be a live stock show, poultry show, athletic contests and several large conventions. Present indications point to the largest crowd of visitors ever entertained in Oklahoma City.

**For Egyptian Art Objects.**  
New York, Nov. 21.—Albert Morton Lytting, who has been appointed curator of the new department of Egyptian art of the Metropolitan Art Museum, sails on the Baltic today en route for Egypt. The purpose of his trip is to make purchases of Egyptian art objects and antiquities. He will spend several weeks in London and Berlin purchasing equipment for his work in Egypt, which will extend until about the middle of May.

**Julius Howells, a nephew of William Dean Howells, and J. W. Moore, both engineers of Hamilton, O., will sail for Japan on Dec. 7, where they will spend three years in building the sea coast fortifications of that country.**

## RUSSIAN HOPES OF INDIAN POSSESSION ARE BLASTED

### Ruler Of Afghanistan, Country Which Separates Domains Of Lion And Bear, Guest Of British Government Officials.

[SPECIAL TO THE GAZETTE.]  
Bombay, Nov. 21.—A dispatch from Cabul states that Habibulla Khan, the ruler of Afghanistan, leaves today on his much-discussed tour of India. The visit of the Ameer is looked forward to with much interest. It has been officially stated by the Ameer and confirmed by the British authorities that the visit is without political significance. But the invitation and its acceptance can hardly be regarded as otherwise than a move to further cement the friendly relations between Afghanistan and England, and it is sure to be so considered by Russia. The crux of the matter lies in the fact that Afghanistan is the buffer which separates the Russian dominions from England's great empire of India and so long as Afghanistan remains friendly and under the influence of England the claws of the great Russian bear can never close in on India. The Indian officials have arranged that the tour of the Ameer will be conducted with great pomp and ceremony. In addition to the large retinue that the Ameer brings with him he will have an imposing escort of British and Indian soldiery. Nothing will be left undone to impress the young ruler with the strength and power of Great Britain.

The young Ameer will be the more easily impressed as he never before has journeyed outside his own domain. Such was not the case with his father, the late Abdurrahman Khan. The latter, who died five years ago, was a consummate politician, and for four years he flirted with both Russia and England to his own material advantage. To the day of his death he received a subsidy of more than half a million dollars a year from the British Indian government, with large gifts of artillery, rifles and ammunition to improve his military force. He spent many years of exile before coming to the throne in Russian Asiatic territory and had also visited various parts of Europe.

### Pleas Of Non Vult Contendere Entered In Conspiracy Trial At Philadelphia Criminal Court.

[BY ASSOCIATED PRESS.]  
Philadelphia, Nov. 21.—Five of the fourteen ice dealers placed on trial in the criminal court here yesterday on the charge of conspiracy to raise the price of ice, today pleaded "non vult contendere" and threw themselves upon the mercy of the court. A plea of this character is verbally an admission of guilt, but carries with it the excuse that the offender had no intention to break the law.

## BELOIT PEOPLE BELIEVED TO BE LOSERS OF \$15,000

### Held Stock In Pine King Land & Lumber Company With Alleged Properties In Mexico—Sales Agent Arrested.

[SPECIAL TO THE GAZETTE.]  
Beloit, Wis., Nov. 21.—By the arrest of one William J. Root in Chicago yesterday a number of Beloit people learned this morning that they have probably been swindled out of \$15,000. The accused financier sold stock to that amount in the Pine King Land and Lumber Company here a few years ago. He represented the company as having thousands of acres of valuable timber lands in Mexico and alleged contracts with railroad companies promising big dividends almost immediately.

## DIES AS RESULT OF FOOTBALL INJURIES

Roscoe, Ill., Lad Succumbs at Military School—Parents Ignorant of Condition.

[SPECIAL TO THE GAZETTE.]  
Beloit, Wis., Nov. 21.—Charles T. Hyatt, sixteen-year-old son of E. E. Hyatt, hardsman on the Lovejoy farm at Roscoe, Ill., died in Cincinnati Monday afternoon from injuries received in a football game and a complication of blood poison and typhoid fever. The boy was attending College Hill Military academy and previous to his death his parents knew only that he was suffering with fever and blood poison. News of the latter infection did not arrive until late last week when the school authorities informed Mr. Hyatt that amputation of an arm would be necessary.

**SOCIAL AND ECONOMIC ASPECTS  
DISCUSSED LAST NIGHT.**

**HEARD ABOUT THE HOSPITAL**

Also, and Elected M. O. Moutat Leader of the December Meeting—Exhibition Planned for January.  
Subject for December meeting—"Is the Criticism of the United States Senate Justifiable?" Leader—M. O. Moutat. Subject for the January meeting—"Things Made in Janesville." Leader—J. A. Craig. At the January meeting Janesville manufacturers will be exhibited as well as discussed.

Rev. W. A. Goebel was the leader of a very interesting meeting of the Twilight Club at the Y. M. C. A. auditorium last evening. Following a substantial report, which was served to about 120 members, and the lighting of the cigars, a report of the hospital committee was called for. T. O. Howe, as spokesman, said that the committee had circulated quite freely among the people of the city, soliciting donations, and had raised approximately \$5,000. The sum of \$5,000 was needed and the balance could be secured if sufficient energy and work were to be devoted to the task. Father Goebel said that he should judge that the committee had done very well and that it might be wise to grant more time. He spoke of the successful hospitals he had visited in Racine, Rockford, La Crosse, Milwaukee, and other cities. Nearly all the important cities in the country, not already so provided for, were striving to secure the services of the Sisterhoods. Until recently it had been impossible to get one here on any terms. The Mother Superior with whom the committee had conferred for many years, druggist at the Mercy hospital in Chicago and the city would be very fortunate indeed in securing her services.

Approached with Hesitancy  
Turning to "the subject on tap tonight," the leader warned members against leaving the hall. Any such movement would be regarded as suspicious, to say the least. Considering this subject, "The Economic and Social Aspect of the Liquor Traffic," the club was to be congratulated that it had a leader and doubly congratulated that there were members who would condescend to speak. Upon approaching a greater number of them, the leader became somewhat discouraged at the excuses which they offered. Many hastening to claim that they could not approach the subject with the sobriety due it. The speaker had often wondered why the tobacco question was not classified with the subject at hand. If the liquor dealers and consumers were scripturally relegated to the terrible place below he marvelled why the tobacco sellers and users should not be likewise so relegated. The liquor traffic was something immense. 33,000,000 bushels of grain are consumed annually in this country and \$32,000,000 is invested, two-thirds of it in the production of malt liquors, about one-third in distilleries, and \$3,000,000 in the production of wines. The total capital invested in the traffic is \$382,000,000. There are 364,000 men employed, and 1,800,000 people are directly dependent on the traffic for their living. Of the crime and lives wrecked, of the untold misery which follows in its trail, all of his hearers had heard. These subjects had been harangued in all pulpits.

Statistics showing the direct causes of crime were difficult to obtain, but he had been informed by one in authority that of the 150 inmates of the Rock county asylum a majority owed their condition to the use of intoxicating liquors. The same was true of a large majority of the men and some of the women in the poorhouse. The question of intemperance enters into nearly all of the commitments in municipal court. Statistics gathered by the committee of fifty of New York among 13,402 convicts in 12 states in 17 prisons and reformatories showed that intemperance was the cause in 35 per cent of the cases. The first and leading cause, 31 per cent, and the second cause, 16 per cent. Among the various nationalities the percentages were as follows: Russians, 25; Austrians, 34; Germans, 44; Americans, 50; Italians, 50; English, 53; Scandinavians, 56; Irish, 57; Canadians, 57; and Scotch, he was sorry to say, 58—the highest of all. The saloon, he said, is a most prolific source of evil. From it as a common center flow the mighty currents of misery, poverty, and crime. Yet, in fairness, it must be said that it is not responsible for all of the crimes due to intemperance. Drinking is not all done in the saloon. Nor is the saloon always a mere drinking place. It is sometimes called the poor man's club and as such provides warmth, social ability, and food. The question can only be solved when some substitute of men in a like manner and possessed of a valid basis in yielding profit, can be discovered.

Other Phases  
Dr. T. H. McCarthy presented interesting statistics showing the relation of the traffic to poverty and pauperism and Supt. H. C. Buell discussed the various legal methods of control in operation in this country and elsewhere. To the operation of prohibition laws in Iowa and Maine he devoted particular attention. Speaking on social aspects of the Saloon in Janesville, and elsewhere, Fred Marzluff presented statistics to show the cost in money of the liquor traffic as conducted here—totals of wages paid to bartenders, license fees, rentals, arrests for drunkenness, fines levied, and so forth. He devoted considerable attention to the saloon as the poor man's club and the sort of a substitute which would have to be provided before the institution could be dispensed with. The most notable address of the evening, perhaps, was that of Rev. Dr. M. J. Ward of Beloit, who has been a strong temperance worker all his life and who has personally observed and studied the workings of the liquor traffic in Europe as well as America. The sale and use of liquor as a beverage was unqualifiedly condemned by him, and his stirring denunciation made a strong impression on his hearers.

**Catarth of the Stomach**  
**A Pleasant, Simple, But Safe and Effective Cure for It.**

**COSTS NOTHING TO TRY.**  
Catarth of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, sickle appetite, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior could be seen it would show a slimy, inflamed condition. The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucus lining of the stomach. To insure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarth condition will have disappeared.

According to Dr. Harrison, the safest and best treatment is to take each meal a tablet, composed of Disaste, Aspartic Peptase, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Ill., writes: "Catarth is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarth of the stomach. Medical authorities prescribed for me for three years for catarth of stomach without cure, but to day I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use. Stuart's Dyspepsia Tablets is the safest preparation so well as the simplest and most convenient remedy for any form of indigestion. Catarth of stomach, biliousness, sour stomach, heartburn and bloating after meals. Send your name and address today for a free trial package and see for yourself. Address F. A. **WEEKLY REPORT OF  
TOBACCO MARKET**

Louisville, Richmond, Petersburg, Danville, Lynchburg, Durham, South Denton and Ashland.  
Washington, D. C., Nov. 21.—A total of 2,854 hogheads of tobacco were sold on the Louisville market last week, as compared with 1,769 last week during the same week of last year and 612 two years ago. Since January 1 sales have amounted to 129,557 hogheads and compares with 129,047 for the corresponding period last year. Of last week's sales 470 hogheads were Burley and 2,384 dark. Of the Burley thirty-four were of this year's crop and averaged \$7.30. There were 49 hogheads of dark sold at an average of \$6.80. A total of 595 hogheads were received during the week making a total of 95,209 since January 1st.

The market has shown some advance in values for old Burley in sound condition, the better grades showing the greater improvement. The sales of new Burley brought from \$5.25 to \$5.50 with a general average of \$5.29. The market on dark tobacco continues firm and active for all grades of old and in view of the remarkable small stock, there is general faith in the strength of the position. Sales of new dark this week averaged from \$4.30 to \$4.70 with a general average of \$4.50.

The movement of the new crop has been retarded by continued dry weather. The Green river type which was put up this year is being rapidly sampled and shows good condition and better quality than was expected. The stock of old Green rivers is much smaller than usual for this time of year, and this in connection with the general feeling that the crop is not so desirable in quality as the previous one, gives hope for good demand for this kind of tobacco.

There were small sales on the Richmond, Va., market last week, the offerings being of poor grades. There has been considerable damage to tobacco in the breaks and few transactions in round lots. The market remains unchanged and quiet with very light receipts on dark-fired re-ordered goods. On new dark-fired the receipts have been so light that the market has been quite firm on Brights. On new-cured the market is very active, but the receipts are very light. Primings have brought from \$1.50 to \$4; common to good lugs, \$4; good to prime lugs, \$6 and \$7; short leaf, \$7 and \$9; long leaf, \$8.50 and \$10; wrappers, \$10 and \$12. The sales have also been light on the Petersburg, Va., market, amounting to \$2,625 pounds. Considerable of the tobacco has been in bad condition being "frog-eyed." Common lugs have brought from \$4.50 to \$6; good lugs, from \$6 to \$7.50; short leaf, from \$6 to \$8; shipping leaf, from \$8.50 to \$12; short wrappers, from \$8.50 to \$12.50; and fine wrappers, from \$15 to \$19.50.

Sales were quite large on the Danville, Va., market during the past week, and the quality of the offerings was much improved, showing more color and character. The condition has also been very much better than for the past six weeks. Of course a proportion of the offerings have been damaged, but this is small. Prices have shown a decided advance on all grades, the highest on wrappers being 50 cents.

A total of 286,300 pounds of loose tobacco were sold off the Lynchburg, Va., market during the week ending November 16th, as compared with 442,500 pounds the week previous. From September 1, 1905, to November 16th a total of 2,206,100 pounds were sold, as compared with 2,101,100 pounds during the same period of 1905. The receipts last week were larger than the week before, but the quality of the tobacco was of common grade. Some mouldy tobacco was noticeable. Prices were high on all grades which were fairly satisfactory to the planters, except on the better grades of leaf. The prices ranged as follows: primings, \$2 to \$5; lugs, \$4 to \$5.50; common leaf, \$5.50 to \$6.50; medium leaf, \$6.50 to \$8; good leaf, \$8 and \$12.50, and fine leaf, \$10 and \$14.

Prices have advanced on tobacco offered at the South Boston, Va., market, because of the better condition of the same. The damage to the tobacco by the wet spell recently is estimated to have caused a 25 per cent loss.

The Business Men's association of Ashland, Va., is conducting negotiations with a view of erecting a tobacco warehouse for the trade and an invitation has been extended to the Northside Sun Cured Tobacco Growers' association to establish a market here through the medium of a local warehouse.

**IMPORT AND EXPORT  
TRADE IN THE LEAF**

Statistics Showing How United States Buys and Sells Her Leaf and Products.

Washington, D. C., Nov. 21.—The United States imported, 2,413,375 pounds of leaf tobacco valued at \$1,042,282 from Cuba during the month of September last and also 69,884 pounds of cigars, cigarettes and cheroots valued at \$332,014. This was a considerable increase over the imports in September, 1905, when they amounted to 1,468,575 pounds of leaf valued at \$839,697 and 70,785 pounds of cigars, cigarettes, etc., valued at \$332,749. In September, 1906, the United States exported manufactured tobacco to the value of \$2,757 to Cuba, as compared with \$6,249 worth in September, 1905.

We exported \$74,171 worth of cigars, cigarettes, plug, and other manufactured tobacco to Alaska in September, 1906, and also 4,434 pounds of leaf tobacco, valued at \$1,170, as

compared with \$81,475 worth of manufactured tobacco and 1,446 pounds of leaf valued at \$400 in September, 1905. From Alaska we received \$1,779 worth of manufactured tobacco in September, 1906, as compared with only \$532 worth in 1905.

There was a slight decrease in our exports of tobacco to Hawaii in September, 1906, as compared with 1905, being valued at \$32,716 in the former period and \$32,099 in the latter. These exports consisted of cigars, cigarettes, plug and other manufactured tobacco. From Hawaii the United States received only \$29 worth of cigars in September, 1906. No figures are given for 1905.

Our trade with Porto Rico still continues to increase. In September of the current year we shipped \$31,394 worth of leaf tobacco to that country, as compared with \$21,689 worth of leaf and \$3 worth of stems and trimmings in September, 1905. Our exports of manufactured tobacco, such as cigars, cigarettes, plug, etc., rose from \$38 worth in September, 1905, to \$1,756 in 1906. Our imports from Porto Rico also show an increase, rising from \$381,093 worth of leaf, stems, trimmings, cigars and cigarettes, in September, 1905, to \$435,407 worth in September, 1906.

A very large gain in our exports to the Philippines over 1905 is also noted. During September of that year we exported \$11 worth of manufactured tobacco, and in September just passed these exports had risen to \$12,035 in value. Our imports from the islands have also increased, rising from \$149 worth of cigars, cigarettes, leaf and other manufactured tobacco in September, 1905, to \$519 in September, 1906.

**PITTSBURGH BLOCK  
HOUSE TO BE MOVED**

Colonial Monument, About Which so Much Discussion Has Waged, Now in Midst of Freight Yards.

Pittsburgh, Pa., Nov. 21.—How to preserve the only remaining monument of British occupation in this region is a problem that is agitating the press and public of Pittsburgh. In an effort to keep an old block house, built in 1764, where it stood and most coveted section of the city, the Daughters of the American Revolution has lost the first skirmish in the courts. This forecasts the removal of the house to some site where it will be safe from damage and decay and where it can be seen by visitors.

The historic little building is surrounded, except for a narrow strip of land connecting it with Penn avenue, by the freight yards of the Pennsylvania railroad. It was proposed to remove the block house to some public park—the plan adopted with William Penn's cottage in Philadelphia—but the offer was rejected by the D. A. R., who own the block house.

The block house was built during the stormiest period of the war between the English and the Indians. One hundred and forty-two years ago Pontiac's war had broken out. The year before, 1763, Fort Pitt, which then stood on the present site of Pittsburgh, was assailed by the Indians. It looked as if thearrison was doomed to death when Col. Henry Bouquet was sent to its relief. On the way he defeated a large body of Indians, and after this reverse they gave up the siege of Fort Pitt and fled.

It was in the summer of 1764 that Col. Bouquet built the block house, as an outpost to Fort Pitt. It is a curious little structure, built of heavy stone with small port holes for guns. On all sides the ground has been raised to a higher level so that the building is in a hollow. Just to the north of it are the new Pennsylvania terminal warehouses and platforms. To the east of the house are the ends of tracks which can go no further on account of it. If the tiny piece of land could be secured it would mean the handling of hundreds of tons more freight in a day in a badly congested district.

The land on which the building stands was given to the Daughters of the American Revolution by Mrs. Mary E. Schenley twelve years ago. Later, the rest of the block was obtained by the Pennsylvania railroad for a freight terminal, demanded by the commercial interests of Pittsburgh.

The suit just thrown out of court was brought by the D. A. R. to enjoin the railroad from obstructing "O'Hara avenue," a thoroughfare proposed but never opened. The court has decided that the Daughters have no rights as to "O'Hara avenue."

Everybody realizes that the block house is a valuable historic relic and ought to be preserved; only the D. A. R. hold the opinion that the real purpose of preservation would not be better achieved by having this remnant of pre-revolutionary days removed to some environment more suitable than a freight yard.

Mrs. Austin's Backwash has a world-wide reputation on account of its genuine backwash flavor. Don't forget the name.

**HOW WASHINGTON  
STRIKE WAS SETTLED**

Detailed Story of Recent Strike and Its Settlement in Every Particular.

Washington, D. C., Nov. 21.—All is peaceful now among the ranks of the cigarmakers and manufacturers of Washington. The 125 odd rollers of the delicious after-dinner smokes are again back at their tables busily engaged in turning out their products as of yore instead of wrangling over their difficulties with the manufacturers. Their troubled minds are now eased into sweet contentment as the result of their victory over the somewhat obstinate manufacturers. When the strike was first declared and the cigarmakers marched en masse out of their accustomed places it looked as though the affair would assume grave proportions. But the cigar manufacturers of Washington, about thirty-five in number, have quite a bit of competition to contend with owing to the influx of larger quantities of cigars from adjacent territory, Pennsylvania, New York, Maryland and Virginia and they realized that should they refuse to grant the increase in wages demanded by their workers that the trade of Washington now supplied by them would readily be filled by outside factories through the local tobaccoists. This fact appealed to them very strongly and rather than forsake their somewhat lucrative business here for fortunes elsewhere, they granted the increase and now the trouble is over. When the strike was first declared thirty-one of the manufacturers immediately granted the increase of from 75 cents to \$5 per thousand as to their workmen, and the men immediately returned to work. Of the four remaining manufacturers to hold out against the demands of their men, three of them gave in after a four days' cessation of their business. It remained for Henry T. Otterdinger, the leading manufacturer of the city, employing thirty-five cigarmakers, to hold out longer than any of his competitors. He positively refused to grant the increase and his tables were bare of men rolling the weed for over a week. He had quite a supply of cigars on hand with which to meet immediate demands and in this way was not injured by the temporary lay-off of his men. After numerous conferences with committees from the local union of cigarmakers, Mr. Otterdinger yielded, though reluctantly, to their demands, late last week, and on Monday morning of this week his thirty-five men returned to his factory and resumed work. He met the unionists at his place of business on 9th street, N. W., between E and F streets. He told them he was perfectly willing to give the increase, if he could do so and still make a profit on his sales. He asked for a week's time in which to consider the matter, but they insisted on an immediate answer. He promised to give them a decided answer the following morning, Saturday, and when the committee waited on him on that day, he announced that he would grant the increase, and signed an agreement to that effect.

The cigar unionists assured Mr. Otterdinger and the other manufacturers that all union cigarmakers will continue to call attention to goods bearing the union label, and in this way create a demand for articles manufactured by members of the unions. They say that an average raise of 60 cents on the thousand cigars is not enough to affect the manufacturers' profits. This view of the case is held by Daniel Loughran, the veteran wholesale tobaccoist, located on Pennsylvania avenue near 14th street, N. W. Mr. Loughran is probably the largest wholesaler in the city, and in discussing the matter with a representative of the Janesville Gazette, said that he had not raised the price and that he did not think the advance granted the cigarmakers would have the effect of raising the price of cigars, even the five-cent grades.

Manufacturers say that the increase will have the effect of driving off the market several popular brands of cigars. They claim they will be unable to make them under the new scale of pay.

Up to date no advance has been made on any grade of cigars here.

A local paper printed a story the other day to the effect that Mr. Otterdinger intended to remove out of his present quarters and take a smaller place of business, as he intended to cut down the number of his cigarmakers. A representative of the Janesville Gazette ascertained today that such is not the truth. Mr. Otterdinger has advertised for rent, through the owner of the building, the second story of the building, now occupied as workrooms for his men. It is his intention to have the cigarmakers work in the rear of his store and this accounts for the reported decrease in his force.

**NEW FAD IN TOWN.**

Many Men Getting a Sensible Habit. In the last few days it has become the popular thing to step in People's Drug Co.'s drug store and get a pocketful of Wadsworth Bros. "Chicos," a 5c cigar that has caused many men to get what may be called the "Chico" habit.

It is far more sensible smoke a good 5c cigar like the "Chico" (and there is no other 5c cigar like it) than to pay double the price and get no better smoke. It is made with a clear, long Havana filler, and is especially pleasing to the man who has been smoking a 10c or two for a quarter cigar. It burns freely, and tastes good clear to the stub.

Try a "Chico" and see if you, too, do not get into the habit of frequenting People's Drug Co.'s drug store for your supply of cigars.

Wadsworth Bros. Chicos are also for sale at King's Pharmacy.

**THE SKIDOO PROBLEM**

A coin collector had an accumulation of pennies. He told his son he would make him a present of the entire lot if he would put them in boxes, the same number in each box.

There was an odd number of pennies so that if he put an equal number in each of two boxes there would be one penny left over; in a like manner he figured on 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21 and 22 boxes, but in every case if he put an equal number in each box there would be one (only one) penny left over. The son gave it up and told his father he thought it impossible to perform the feat. His father replied: "SKIDOO—23 for you." The son then put the entire lot of pennies in 23 boxes, the same number in each box.

How many pennies were there? To make the problem plain, the entire number of pennies was a number, which if divided by any number from 2 to 22 inclusive there will be a remainder of one (only one) and if divided by 23 there will be no remainder.

500 new pennies will be given to the person who sends in the most skillfully worded correct solution to the problem. 23 pennies will be given to the five other contestants whose solutions are considered by the judges to be the next most ingenious. Skidoo pins will be given to the other contestants whose solutions are considered unusually cleverly worded out. Send answers as often and as many of them as you please. Write on one side of the paper only in sending your answer and if sealed and mailed use 2c postage.

Mr. Editor: My answer to the Skidoo Problem is that the man's son tried to get (the) all of the pennies in 23 boxes and there was one left over. He told his father it could not be done. His father said, "23, Skidoo," and his son put them in 23 boxes and there were only 23 pennies and 23 boxes with one penny in each box.

One For Each Box.  
Janesville, Wis., Nov. 6, 1906.  
Dear Puzzle Editor: Below is my solution of the "Skidoo" problem. The coin collector gave his son 23 pennies, which he put into 23 boxes. To find out how many pennies he should put into each box he divided the number of pennies (23) by the number of boxes (23) and he had no remainder. Then to find the number of pennies for box 23 he divided it (23) by the number of pennies (23) and he had one remainder.  
He then took the remainder of pennies which was 23 and divided it by box 21 and he again had one remainder. And by so continuing through all the boxes he had one remainder for each box down to box number one. I remain, yours,

## IMPRESSIONS

Are often permanently formed from a single purchase a new customer makes in YOUR store and new customers are invariably made during a special sale. We advocate SPECIAL SALES, but only the sterling kind that cannot fail to make a good impression. A disappointed crowd hurts more in dollars and cents, in the end, than if you had not advertised.

Bad impressions are hard to live down—the returns from good impressions are never all in.

Advertise and see to it that the impressions formed shall be good ALWAYS. Call the Gazette ad man.

Suggestion to Automobilists.

An automobilist of great experience suggests that it is a good idea for the driver of a car to show his companion on the front seat how to switch off the ignition current in case the driver suddenly becomes incapacitated. By this simple operation the car can quickly be stopped, and the damage it is liable to do if it runs wild will be reduced. —Scientific American.

## Before the Footlights.

"The Bronco Buster" is a most striking production in many ways. The realism displayed in the mounting and costuming of the play, together with real western atmosphere, gives to the production something not seen in the usual western pieces. "The Bronco Buster" holds the interest of the audience throughout the entire play. There is not an uninteresting character in the story, and the stage settings are admirable and lacking in nothing. Mr. Michael Fee has selected an "entire cast" that seems exceptionally well fitted for the parts which they portray, so an enjoyable evening can be looked forward to on Saturday, Nov. 24, matinee and night, at Myers theatre.

## The Editors' Apology.

As usual our printer left us in the "soupe" last and this week, and we have not as yet been able to secure the services of another, and therefore we ask the indulgence of our readers for the scarcity of reading matter this week. We have been conducting a sale by auction, and had but a few spare hours left in which to get out this sheet. We hope, however, to do better next week.—Washington (N. C.) County Times.

## Salt a Luxury.

Salt is the greatest luxury known in Central Africa. In some sections among the poorer inhabitants salt is never used. Even among the better classes, a man who eats salt with his food is considered a rich individual. In some tribes, where salt is not so scarce children are so fond of it that they may be seen eating it just as our children would eat pieces of lump sugar.

# S.S.S. PURELY VEGETABLE

Not only as a medicine, valuable for its ability to cure disease, but the way in which it affects the system is a very important factor. When the system is infected with the germs of disease as in Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, etc., every particle of its recuperative strength is needed to assist in eliminating the poisons and impurities which are causing the trouble. It should not be dosed and treated with strong mineral mixtures and concoctions that further add to the burden, by disagreeably affecting the bowels, producing indigestion, or eating out the delicate linings and membranes of the stomach. The absolute vegetable purity of S. S. S. has always been one of the strongest points in its favor, and is one of the principal reasons for its being now the most widely known and universally used blood medicine on the market. It is made entirely of healing, purifying roots, herbs and barks of the forests and fields. These are selected for their well-known curative properties, and are known at the same time to possess the qualities to build up and strengthen every part of the system by their fine tonic effect. Not only is S. S. S. the king of blood purifiers, but it is the one medicine that may be taken with absolute safety by young or old. We guarantee it non-injurious and offer a reward of \$1,000 for proof that it contains a particle of mineral in any form. S. S. S. is a safe and reliable treatment for Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and any and all diseases arising from a poisoned or impure state of the blood. It goes to the very bottom of these troubles, removes every trace of disease, enriches and builds up the blood, and permanently cures where mineral medicines fail. If you are suffering with any form of blood disease write for our book on The Blood and ask for any medical advice you may desire, no charge for either. **THE SWIFT SPECIFIC CO., ATLANTA, GA.**

THE COST OF LUXURIES  
The luxuries of life are what keep people poor; a fact that we are slow to recognize, and yet a fact nevertheless. In times of prosperity money comes easy and goes easier, and when a balance comes up on the wrong side of the ledger, the grocery bill, the meat bill and the clothing account have absorbed the income, and consolation is found in the fact that prices have advanced beyond all reason, and the saving of money is out of the question.

The periodical glass of beer, the triad smoke, and a score of other things, not really necessary, are overlooked, but that is the route which took care of the surplus, and they represent a mighty poor account to draw on at the end of the year.

Statistics, recently compiled, show that over \$100,000,000 was sent out of the United States during the last fiscal year for luxuries. Of this amount, forty million dollars was spent for diamonds, forty millions for lace, edgings, embroideries and ribbons, seven millions for feathers, six millions for champagne, and the remainder for toilet articles of various kinds. About twenty-five millions more was spent for imported cigars and tobacco.

It will be argued that this class of luxuries are bought by a limited class, who have more money than they can comfortably spend, and that the masses are not troubled with this kind of extravagance.

That is largely true, and yet many women wear diamonds and lace on a surplus that would be difficult to locate with a spy-glass, while their husbands drink champagne and smoke imported cigars on the strength of next week's pay-day.

The imported luxuries, however, represent but a fragment of the money spent recklessly, and with no regard for economy. The ambition to live, by the way, is usually well pronounced when times are good and money is plenty, and but little thought is given to the years ahead, when the earning capacity is reduced or entirely cut off.

One of the most pitiable objects is the man well along in years, who has always been accustomed to the comforts and many of the luxuries of life, reduced to a pittance and with poverty staring him in the face.

It is a pleasure to be able to live well, and worry about the future, never contributes to happiness, but provisions for the unproductive years, prolongs the era of contentment, and maintains respect down to the verge of time. Be generous, but don't be a spendthrift, and life will mean more than a holiday.

THE IDLE FREIGHT CAR.  
The idle freight car has always been a conundrum, and people never cease to wonder how railroad companies can afford to support so much inactive rolling stock. It is no uncommon thing for a car shipped from New York to Milwaukee to lay around the Chicago yards for a week, and every freight train is made up of cars from half a dozen different roads.

A California road ships a train to the eastern market and if the cars all get back in three months, the company is fortunate.

States senator? Well, why not! There will have to be somebody to take the office after the 4th of March, 1909, when the new president moves into the whitehouse, or Wisconsin will have but one senator. And Wisconsin's experience as a one-senator state has not been such as to encourage it to wish any more of it. Still, it is quite a while to the 1908 primary election."

THE DOOM OF HUMAN GREED  
There are two features in our industrial and political system, says the Wall St. Journal, which may as well get ready to quit business. They are the criminal corporation and the corrupt official. Unless the signs of the times are grossly misread, the handwriting is already on the wall, indicating that their doom is not distant. True, there will always be corporate officials who, according to the eternal fitness of things, should be in jail, and there will be public officials who have no higher sense of duty than to help themselves to everything in sight, short of landing themselves in prison. But these are but incidental to the normal degree of integrity which an intelligent popular judgment is beginning to insist on, as a requisite for office, corporate or public.

There is now going on a searching of records, a scrutiny into careers which is gradually shelving the man who cannot be successful in business without being a criminal. The type must go, whether by self-elimination, by force of judicial procedure, or by dint of outraged public feeling.

If the good will of one's fellowmen is worth having, it must be gotten not by gifts, not by deception, but by playing fair with them. One cannot fleece the public by methods which popular sentiment regards as immoral and at the same time count on the respect and esteem of one's neighbors or fellow citizens.

This is not scolding anybody, mind you. It is the inevitable fate to which greed brings those who are driven along by its passion. What though a man may prosper? The hot wrath of popular sentiment will wither his prosperity, if he reckons prosperity by the good will of his fellow man. To live in an atmosphere of the hatred of one's neighbors is hell, and that is what the wrong doers in the management of corporations in disregard of law, of justice and of common honesty must expect to get in alapholic doses, as the natural reward of their methods.

Fortunately for the country, the vast majority of our business men whether engaged in corporations or otherwise, have nothing to fear from this "hot wrath," for it is not directed against them.

The President's political family appear to be in a mix-up. Secretary Taft has taken it upon himself to countermand the order of the President discharging three battalions of negro soldiers, for participating in the Brownsville, Texas, riots. The south is said to be very much exercised over the occurrence, and it remains to be seen who is at the head of the army.

The next assembly should be organized in the interests of the administration. If Governor Davidson is successful it will be because he is surrounded by helpers who are in sympathy with him, and in accord with his policy. There can be but one governor, and he should be supported by the same spirit of loyalty which elected him.

The walking delegate, Post, imported from Cleveland to inaugurate and represent Johnsonism in the public schools of Chicago, should be given short shrift. The citizens of Chicago owe it to themselves and to the next generation to weed out unionism and Halemism and establish and maintain an era of common sense.

It is gratifying to know that the option on the Janesville Street railway has been renewed by the promoters of the Madison interurban line, as it is an evidence of good faith, which should silence and criticism. Work could not commence before spring, but there is every indication that it will begin then in good earnest.

Steel rail orders booked for delivery in 1907, amount to 2,500,000 tons. That indicates that the railroads propose to continue business. Seventy-five million dollars invested in rails is but a fraction of what will be spent on terminals and other improvements.

Earthquake and fire is a hard combination. The old German Fire Insurance Co. of Freeport, noted for strength and conservative management, has been obliged to retire from the field, on account of a \$6,000,000 loss in San Francisco.

Beloit is likely to have another seance with organized labor. The national labor convention, in session at Minneapolis, decided to enter the field politically and fight the Employers' association. The Line City is on the program for an early contest.

### MATHEWS CAPTAINS BASKETBALL TEAM

Elected Head of Aggregation That Will Open Season at Stoughton Tomorrow Evening.

Leonard Mathews has been selected captain of the local Y. M. C. A. basketball team for the season of 1906-7. The choice was made at a meeting of those who were picked for regular and substitute places. They are: forwards—Walter Carle, Stewart Richards, Leonard Mathews; center—Bruce Kline; guards—Will Lundford, Fred Wilkerson and Rexford Brown. These seven will go to Stoughton tomorrow evening for their

first game. Their opponents will be the Maudt Wagon works representatives, a strong aggregation which yearly plays a full schedule with college, academic, Association and high school organizations. Several other contests are in prospect, but no definite arrangements for any have as yet been made.

### HUNTERS RETURNING FROM NORTH WOODS

George Appleby, Drs. Hart and Edson, Each Secured Deer and Ora Hanthorn, a Porcupine.

George Appleby and Sheriff-elect Ora Fisher of Evansville returned this morning from a hunting expedition in the vicinity of Ashland, The Evansville man bagged two fawns and the Janesville nimrod brought down a large 135-pound doe. The snow was three inches deep in the woods and the large number of bullets flying made the sport somewhat dangerous.

Drs. R. R. Powell, R. W. Edden, and R. J. Hart reached home yesterday after an outing at a camp located eighteen miles from the town of Phillips. Dr. Hart secured two large bucks and Dr. Edden, a doe. Dr. Powell failed to bring down any game. The ground was covered with a heavy fall of snow in that locality.

On several occasions the hunters heard the howls of the wolves and once saw a pack which escaped them. Ora Hanthorn, city mail carrier, returned this morning from a two weeks' outing in the woods of Northern Wisconsin. One of his adventures was the pursuit through the swamps of the tracks of a supposed bear-cub which led to a tall tree. As the little beast tumbled from its high perch in response to a shot from his gun, he called loudly for help—visions of the enraged she-bear appearing on the scene giving him just cause for fear. Then he looked at the quarry and found that it was only a large black porcupine.

## TRANSPORTED TO ELYSIAN FIELDS

DeWolf Hopper and His Company Took Large Audience on Delightful Journey Last Evening.

"Happyland"—A comic opera, with music by Reginald DeKoven and book by the late Frederic Ranken, presented by DeWolf Hopper and his company under the management of the Shuberts at the Myers theatre, Janesville, Tuesday evening, Nov. 20, 1906.

## Cast of Characters.

Vistas of classic woodland vales and smiling skies in the growing dawn, untold to the view from the nearer palace gardens where the marble fountains played, and gambled the gentle troubadours and shepherds and the flower-maidens, fair of mien and clad in the flowing robes of Attic, Greece and the soldiers in their glittering armor, spontaneous, simple, and appealing melody such as might have charmed the lotus-eaters or old Ulysses—these were some of the rewards of those who wandered with the tall, slender, DeWolf Hopper, and his company, under the title, "Happyland," through the Elysian fields last evening. There were others, too, who were prominent in the picture—William Danforth in the astonishing make-up of the "King of Altruria," William Wolff (remembered for his "Good Old Days" song as the bold bandit with Paula Edwards in "Winsome Winnie" who had the broad comedy part of the "secret repository" on this occasion; John Hendricks, the soldier with the magnificent bass voice which was heard to such great advantage in "The Black Sheep"; Joseph Phillips, the romantic tenor; Cora Daigneau, pretty and possessed of a powerful soprano of unusual purity; and Ada Deaves, the bogus princess.

The book relies for its humor on a series of commonplace comic opera situations and a continual play on words. The song of "How I Love the Flowers," with which Hopper and Danforth take the audience by storm, is a gigantic string of puns, with the helpless denizens of the vegetable world as victims. Mr. Hopper allows no point to be lost, embellishing every humorous sally with his inimitable play. In this he has an admirable foil in the eccentric Danforth whose grimaces and oddities of voice and posture are always worth compelling. Mr. Hopper acknowledged the repeated plaudits after the first act last night with a droll curtain speech.

The little fourteen-year-old princess, with the bright, melodious voice and almost ethereal beauty, was every spectator with the childish delight she seems to take in singing "Robin" and "Twins the Rose" and every auditor, as well, with the pleasing quality of her music.

The chorus is superb, both as to external comeliness and grace and vocal powers, and the costuming and scenic settings are magnificent. Not since Francis Wilson appeared here in his revival of "Erminie" has an attraction of the idyllic beauty of lines, stage pictures, and melody which this one possesses, been seen in Janesville. The company departed for Freeport today and goes to Davenport, Ia., today.

## FORMER PASTOR HERE DIED IN TROY, N. Y.

Rev. T. P. Sawin Succumbed to Heart Disease at Home of His Daughter a Week Ago.

Rev. T. P. Sawin, former pastor of the Congregational church in Janesville, succumbed to heart disease at his home in Troy, New York, a week ago. Marked papers mailed to local friends and received yesterday brought the first tidings of his death to this city. Rev. Sawin was born in Massachusetts in 1841 and followed in the footsteps of his father who was also a minister of the gospel. After leaving the Bowdoin City he went to Mystic, Conn., but for two years past he had been prevented by illness from preaching. He is survived by his wife and one daughter, Mrs. Sweet of Troy, N. Y. Rev. Sawin had many warm friends in Janesville, who will be deeply grieved over the sad news of his passing.

## FUNERAL OF LATE CELADON BASSETT

Held from Home of Frank Echlin This Afternoon, Rev. R. C. Denison Officiating.

Loving friends paid last tribute to the mortal remains of the late Celadon Bassett this afternoon, when at two o'clock the obsequies were held from the residence of Frank B. Echlin at 37 Milwaukee avenue. Rev. R. C. Denison, officiated and spoke of the Christian, honorable and methodical life of the deceased. Song services were rendered by Mrs. Will S. Jeffris, Mrs. S. B. Lewis, C. N. Van Kirk and William Bladen. The body was laid at rest in Oak Hill cemetery, the pallbearers being William Conrad, P. S. Baker, William Bladen, H. F. Bliss, J. M. Whitehead and J. T. Wright.

## FIRE IN EDGERTON PAINT SHOP TODAY

Heat from Kerosene Stove Set Shade of Window Ablaze and Flames Communicated to Stock.

[SPECIAL TO THE GAZETTE.] Edgerton, Wis., Nov. 21.—Intense heat from a small kerosene stove ignited a window shade on the second floor of L. M. Pomeroy's paint and paper shop shortly before eleven o'clock this morning and a large stock of wall-paper and shades was damaged by smoke and water. The fire department succeeded in extinguishing the blaze in half an hour's time and prevented communication of the fire to any of the inflammable and explosive oils and paints, on the first floor.

## MISS BUTLER BRIDE OF LAWRENCE VINEY

United in Marriage by Rev. W. A. Goebel This Morning—Will Reside on Elliot Street.

Quietly and without ostentation, at 9 o'clock this morning, Rev. W. A. Goebel spoke the words that united in marriage Mamie Butler and Lawrence Viney. The bride was attended by her sister, Stacy Butler, and Wm. Viney, brother of groom, acted as best man. Both bride and bridesmaid were attired in blue-gray gowns of sheer silk, trimmed with Irish point lace. The bride wore a picture hat of white and carried a white ivory prayer book. Mendelssohn's wedding march was played by Miss Helen Foster, who was prettily attired in a green silk.

Miss Butler is the first daughter of Mrs. Margaret Butler. Since making Janesville her home she has made many true friends and her sweet disposition has endeared her to all who know her. Mr. Viney, the second son of Mr. and Mrs. Geo. Viney of Eastern avenue, has been a life-long resident of Janesville and has proved himself worthy in every respect of the fair partner he has won.

An elaborate six-course breakfast was served at the home of the bride's mother, where covers were laid for sixty. The home was tastefully decorated with roses, carnations and smilax. After Dec. 1 Mr. and Mrs. Viney will be at home to their many friends on Elliot street.

## SOCIETY ENJOYS A SERIES OF GAYETY

Parties Are Being Held—Dances Planned—Card Clubs Gather and Roller Skating Begins.

Janesville is keeping up the record of last week for parties and social gatherings. This afternoon Mrs. C. S. Jackman and Mrs. Frank Jackman are entertaining at the residence of Mrs. C. S. Jackman on East street. A second party is to be given tomorrow. Thursday evening a private party will be given at the West Side rink, the second of a series of weekly gatherings for roller skating enthusiasts. On Monday, Tuesday and Wednesday of next week Mrs. W. H. Palmer and Mrs. J. D. King are to entertain. This evening Mrs. John Peters entertains the members of the Humane Society after their regular yearly meeting, with a musical program, at her home. Many not members of the association have been invited to attend.

Birthday Party: Mrs. Kate Keating entertained a company of ladies at a birthday party at her home, 261 South Main street, Friday. "Five hundred" was played and the first prize fell to Mrs. D. J. Monissey and the consolation to Mrs. H. J. Heidebrink. At School for Blind: The pupils at the school for the blind were recently afforded an evening's literary treat in the way of selected readings given by Prof. C. R. Rounds of the Whitewater Normal school. The selections covered a wide range—some of them with which the pupils are most familiar being from Coleridge, Riley, Kipling and Shakespeare.

## WAS ARRESTED ON BECKER'S COMPLAINT

Former Janesville Man Has Trouble with Monroe County Probate Judge.

Emery E. Odell, editor of the Monroe Evening Times and formerly employed in Janesville, was arrested late Monday afternoon on a complaint sworn to by Judge Becker of the probate court, charging Mr. Odell with criminal libel, in that in a recent issue of the Times he stated that while the county board of supervisors had two years ago fixed the county judge's salary at \$1,800 in lieu of all fees, Judge Becker had continued to retain the fees and also collect his salary in full. Mr. Odell appeared in justice court yesterday and the case was adjourned until a later date. Editor Odell is also threatened by Judge Becker with a suit for damages for his remarks made in the Times in relation to the slander suit brought against the judge by a Miss Weirich and a suit for damages brought by the judge against Herman Burg, Miss Weirich's fiancé, because Mr. Burg threatened to chastise the jurist.

## THIS BANK

With capital, surplus, and profits of \$165,000, and an additional liability of its stockholders of \$100,000, offers to its clients absolute security for their monies. The first consideration of its officers is the safety of the funds of the depositors. Other considerations are of secondary importance. It consequently invests its assets only in high grade securities which are readily convertible into cash. We invite the business of all who believe that banks should be conducted upon these principles and assure them the most liberal treatment consistent with them. We pay two (2) and three (3) per cent interest on certificate of deposits according to the time the money remains with us.

# Backache, "The Blues"

Both Symptoms of Organic Derangement in Women—Thousands of Sufferers Find Relief.

How often do we hear women say: "It seems as though my back would break," or "Don't speak to me, I am all out of sorts"? These significant remarks prove that the system requires attention.

Backache and "the blues" are direct symptoms of an inward trouble which may be caused by diseased kidneys or some derangement of the organs. Nature requires assistance and at once, and Lydia E. Pinkham's Vegetable Compound instantly asserts its curative powers in all those peculiar ailments of women. It has been the standby of intelligent American women for twenty years, and the best judges agree that it is the most universally successful remedy for woman's ill-known trouble.

Read the convincing testimonials of Mrs. Holmes and Mrs. Cotterly.

Mrs. J. C. Holmes, of Larimore, North Dakota, writes:

Dear Mrs. Pinkham:— "I have suffered everything with backache and female trouble—I let the trouble run on until my system was in such a condition that I was unable to be about, and then it was I commenced to use Lydia E. Pinkham's Vegetable Compound. If I had only known how much suffering I would have saved I should have taken it months sooner for a few weeks' treatment made me well and strong. My backache and blues are all gone and I suffer no pain at any monthly periods, whereas before I took Lydia E. Pinkham's Vegetable Compound I suffered intense pain."

Mrs. Emma Cotterly, 109 East 12th Street, New York City, writes:

Dear Mrs. Pinkham:— "I feel it my duty to tell all suffering women of the relief I have found in Lydia E. Pinkham's Vegetable Compound. I am a woman best understood by a woman."

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

## LABOR MEN AGAINST THE SHIPPING BILL

ASSERT THAT IT PROVIDES FOR CONSCRIPTION OF SEAMEN.

### ACTION BY FEDERATION

Berger's "Socialist" Resolutions, Not Yet Reported, Promises Trouble—Employment of Asiatics in Panama Condemned.

Minneapolis, Minn., Nov. 21.—Subsided shipping which involves the enlistment of the seamen employed thereon as members of the naval reserve was roundly denounced at Tuesday's session of the twenty-sixth annual convention of the American Federation of Labor, in Minneapolis.

President Gompers touched extensively upon this subject in his annual report, pointing out that while purporting simply to provide for the voluntary enrollment of seamen serving on subsidized ships, the bill pending in congress did in fact provide for the conscription of seamen so enrolled, in time of war. The committee on the president's report, which reported Tuesday, reaffirmed this section of President Gompers' report with emphasis.

Opposed to "Conscription."

Delegate Andrew Furuseth, who read this portion of the committee's report, concluded by reading:

"We recommend that the Federation of Labor reiterate its condemnation of this bill with its un-American provision for conscription."

The recommendation of the committee was adopted.

This was the only spectacular feature of the long expected and, in some quarters, much dreamed report of the committee on the president's report. Those portions of President Gompers' statement which referred to the late political activities of the federation, and which will undoubtedly be made the center for discussion, if not for attack, have not yet been reached.

There is in the hands of the committee on resolutions a resolution which has not yet been reported. It is one of the "socialist" resolutions introduced by Delegate Victor L. Berger, of Milwaukee, and as it stands on the records of the convention it promises trouble. It praises President Gompers' recent political action but demands that the federation go to the lengths hardly contemplated by President Gompers, at least so far as can be judged from his utterances during the present convention.

Resolution May Cause Trouble.

It is full significance is summed up in the two following sentences:

"Resolved, That true labor politics cannot be non-partisan, and must always be partisan. And it must always be partisan to labor and, further more

"Be it resolved, That only by lifting politically on class lines in like manner as we are now economically organized on class lines, can the American proletariat compel recognition of its rights and finally secure the full product of labor to the workers."

ham's Vegetable Compound. When I commenced taking the Compound I suffered everything with backaches, headaches, and female troubles. I am completely cured and enjoy the best of health, and I owe it all to you."

When women are troubled with irregular, suppressed or painful periods, weakness, displacements or ulceration, that bearing-down feeling, inflammation of the female organs, backache, bloating (or flatulence), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, "all gone" and "want-to-be-left-alone" feelings, blues and hopelessness, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles.

No other medicine has such a record of cures of female troubles. No other medicine in the world has received this widespread and unqualified endorsement. Refuse to buy any substitute.

## ELIHU ROOT TALKS OF BUSINESS UNION

SECRETARY OF STATE AGAIN HEARD IN KANSAS CITY.

### ON EXPANSION OF TRADE

Tells Transmississippi Congress About His Trip Through South America and Urges Better Communication.

Kansas City, Mo., Nov. 21.—Before the Transmississippi Commercial congress here Tuesday night Elihu Root, secretary of state, delivered his second speech in this city within two days. It was the feature of the first day's sessions of the congress. As on Monday night, Mr. Root dwelt upon our relations with the South American republics, telling of his recent trip through these countries. He said the time had come for the expansion of trade between the countries of the north and south that would result in the peaceful prosperity of a mighty commerce. He declared that the means of communication between these countries must be improved and increased, and said the "woeful deficiency in the means to carry on and enlarge our South American trade is but a part of the general decline and feebleness of the American merchant marine."

Secretary Root's Address.

Secretary Root's subject was "Commercial Union with South American Republics." He said in part:

"Since the first election of President McKinley the people of the United States have for the first time accumulated a surplus of capital beyond the requirements of internal development. That surplus is increasing with extraordinary rapidity. We have paid our debts to Europe and have become a creditor instead of a debtor nation; we have faced about; we have left the ranks of the borrowing nations and have entered the ranks of the investing nations. Our surplus energy is beginning to look beyond our own borders, throughout the world, to find opportunity for the profitable use of our surplus capital, foreign markets for our manufactures, foreign routes to be developed, foreign bridges and railroads and public works to be built, foreign rivers to be turned into electric power and light. As in their several ways England and France and Germany have stood, so we in our own way are beginning to stand and must continue to stand towards the industrial enterprise of the world."

South America's Evolution.

"Coincident with this change in the United States, the progress of political development has been carrying the neighboring continent of South America out of the stage of militarism into the stage of industrialism. Other investing nations are already in the field—England, France, Germany, Italy, Spain; but the field is so vast, the new demands are so great, the progress so rapid, that what other nations have done up to this time is but a slight advance in the race for the grand total."

Things to Be Done.

"To utilize this opportunity certain practical things must be done. I will indicate some of the matters to

which every producer and merchant who desires South American trade should pay attention:

"1. He should learn what the South Americans want and conform his product to their want."

"2. Both for the purpose of learning what the South American people want and of securing their attention to your goods you must have agents who speak the Spanish or Portuguese language."

"3. The American producer should arrange to conform his credit system to that prevailing in the country where he wishes to sell goods."

"4. The establishment of banks should be brought about. The Americans already engaged in South American trade could well afford to subscribe the capital and establish an American bank in each of the principal cities of South America."

"5. The American merchant should acquire himself, if he has not already done so, and should impress upon all his agents that respect for the South American to which he is justly entitled and which is the essential requisite to respect from the South American."

"6. The investment of American capital in South America under the direction of American experts should be promoted, not merely upon simple investment grounds, but as a means of creating and enlarging trade. For simple investment purposes the opportunities are innumerable."

"7. It is absolutely essential that the means of communication between the two countries should be improved and increased. This underlies all other considerations and it applies both to the rail, the passenger and the freight services."

Secretary Root left for the east at midnight, going by way of St. Louis.

Great Shipments of Coal.

Pittsburg, Pa., Nov. 21.—The long-expected rise in the rivers came Tuesday and over 12,000,000 bushels of coal were shipped to southern points. The shipment was one of the largest in recent years.

Missouri Murderer Sentenced.

Jefferson City, Mo., Nov. 21.—The supreme court Tuesday sentenced W. D. Church, convicted of having killed his foster parents near Warrensburg three years ago, to be hanged January 10, 1907.

### 1-10 OFF FROM MARKED PRICE An Underselling of Thanksgiving Linens

This store has long enjoyed the reputation of being the "Linen Store" of this vicinity. Our linens are of the better sorts—the sorts that will wear, wash and satisfy—the sorts that good housewives are proud to possess.

You know there's deceit practiced in linens—manufacturers fool the store-keepers, and some store-keepers fool the public. "All that glitters is not gold"—nor is everything advertised as linen, linen. The wash-tub shows it up.

And now with festive Thanksgiving at hand—the season of good will and good cheer—of family reunions and Thanksgiving around the festive board—the linen needs are looked for, and the linen chest is ransacked for its short comings.

We can't be fooled on linens—we can detect the chaff from the real wheat. We can't sell what we won't buy—there's safety in buying here.

And we, ever ready, ever willing to help our friends, announce an under-priced selling of worthy linens—a selling of better sorts at the prices of the other kinds.

Prudent housewives will sit up and take notice. It's time to take note of the linen vacancies—time to figure, time to heed, time to buy for the present, time to prepare for the future.

And all because we offer values like these.
